I'd like to express my disgust in the treatment of the small people like myself in this world and mostly regarding the NAB's petition 04-160. I am an american and proud of it and in my patriotism I decided to serve my country in the United States Navy. So real quick let me make my point...I am stationed in San Diego, Ca and my home town is in Missouri. XM's traffic and weather reports for St Louis area let me feel a little more at home so to take it away is a personal shot at me. Alright, that was a little related but here is my true point...how can a bunch of hypocritical idiots try to dictate what I listen to. How can those college yuppies (at most) sit there at their desks and say to themselves that this is okay? Are they not proud of being an American? Are they that obsessed with destroying our freedom of speech? I listen to XM radio because it allows me to hear things that are not broadcasted on mainstream networks which people may know as channel 2, 4, 5, etc. What we see on tv and hear on the common radio is edited and truly non-representative of the truth. Please shut down this NAB petition for it is the only thing that any reasonable person would do. Don't take away my listening rights because it may benefit your savings account. I realize this is just to put more money in someone else's pocket because people like myself realize things like the NAB's petition 04-160 are made just to shut down the small man like myself. I pay to hear what I want to hear as do the millions of others out there...don't make me listen to what the NAB a-holes want me to listen to.
